# TRAINYFLY

*Flying Digital - Training, Employment, Development*

*TrainyFly online learning platform offers courses in friendly format like short videos accompanied with learning materials and tests for self-evaluation.*

*Platform offers 10+ fully prepared courses in digital skills.*

The courses' main audience are people with fewer opportunities in terms of education and/ or access opportunities to labour market (age, health, geographical location).

Each course duration is from 60 to 160 hours.

The learners will be provided with career consultation, including tests for deeper understanding of their personalities.

Learners have also the option of being offered an internship from 1 - 3 months after finishing the course.

Courses will be free during the ERASMUS+ project and one year after it.

Continued on next page

Another target group of TrainyFly project are educators who will improve their understanding of online methods and tools and ability to develop learners' competencies, utilizing the TrainyFly platform. .

The project's first on site meeting and hybrid training took place in Riga, January 2023.

The project is implemented from 01/09/2022 - 01/09/2024.

The ERASMUS+ project is implemented by the partners from Latvia, Cyprus, Finland, Greece and Italy - all of them are experienced in adult-learning and intend to make the courses interactive and interesting for the learners.

Willing to prepare your online course as a tutor?  
Willing to be involved in the pilot-learners group?
